Port of Liverpool Access Scheme

Newsletter – Issue 4

January 2017

This is our fourth newsletter designed to keep you updated as we look at ways to improve road access to the Port of Liverpool, which is already the busiest port in the North West.

Progress so far

We have completed our economic and environmental assessments and we've used our findings to develop the options that we'd now like to share with you and hear your views.

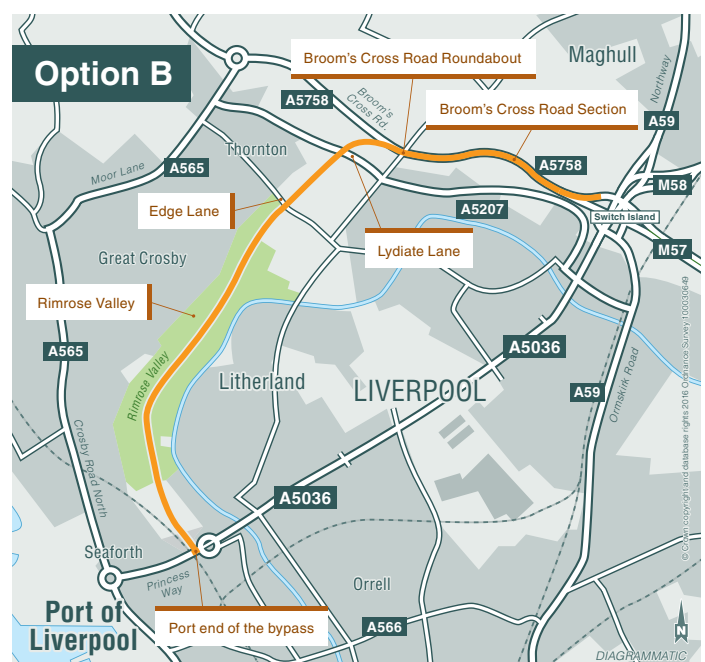

The options

Option A

Junction improvements on the existing A5036 at Hawthorne Road, Netherton Way and Copy Lane. At the Hawthorne Road and Copy Lane junctions, additional capacity will be provided by widening the existing A5036 to allow three lanes through the junction in both directions. At the Netherton Way junction, a new signalised roundabout with through lanes for the A5036 will be constructed.

Option B

A new dual carriageway bypass through the Rimrose Valley connecting Princess Way to Broom's Cross Road. A new signalised roundabout will be provided at the junction between Broom's Cross Road, Brickwall Lane and the new bypass. Broom's Cross Road will be upgraded to dual carriageway from this point to the junction with Switch Island. Edge Lane and Lydiate Lane will be diverted onto new bridges over the new bypass.

Your input means a lot to us

We're now launching the public consultation on the shortlisted options. We'd like to hear your views on the options, as well as views from local government and businesses. The consultation will help us further refine options and select the best performing option to take forward to the next stage of design.

This is your opportunity to tell us what you think of the proposals, what works, what concerns you may have, and give us any local or specialist knowledge that may help us to improve the options.

The consultation will run for 6 weeks, starting Monday 16 January 2017 and closing Monday 27 February 2017.
